Biography of Alvin Yong, MSc, FCCA, UK

Alvin Yong is a UK-registered Fellow Chartered and Certified Accountant (FCCA). He obtained his Master of Science in Professional Accountancy (Merit) in 2017 from the University of London.

Alvin started his career with KPMG Singapore as an auditor in 1999, where he was involved in the audit, due diligence and tax of multinational corporations in various industries, including shipping and logistics, industrial manufacturing, medical and healthcare, construction consultancy and investment holdings.

With strong business acumen, Alvin went on to co-found several companies and has been an entrepreneur for more than 12 years. His companies have served clients across the globe, from US, Europe, Middle East, Africa, Asia to Australia. His current passion is data literacy training as well as innovation and growth consultancy. Alvin enjoys helping his clients understand the stories that their data tells about their business, thus enabling them to make informed, data-driven decisions.

Testimonials

CEO, Felda Prodata Systems: "Alvin is a very people person. Sound knowledge in his area of expertise. He carried out the programme well."

VP of Finance - APAC, Middle East & Africa, FIS Global: "Alvin was well prepared, knowledgeable and easy to follow. Level of detail was where it needed to be and the documentation was very thorough. The course went quickly which was always a good sign."

Financial Controller, BeMobile Ltd: "Exceeded my expectations! I realised how dynamic Excel can be. Understanding the basic formulas is just so important for creating dynamic and interactive dashboards."

Manager, Global Credit Policy and Portfolio Risk, Standard Chartered Bank: "Fantastic trainer in terms of knowledge and skills. Extremely friendly, helpful and patient."

AVP, Investor Solutions, i2M Ventures: "Alvin is very knowledgeable in this field. I would recommend this training to others."

Manager, CIMB Bank: "Very experienced and good trainer."

Learning & Development Specialist, Micron Semiconductor: "Good understanding and knowledge of the subject. Attentive and responsive to participants' queries. Presented the subject very clearly."

Manager - Human Capital, PNG Air Services: "The training would be quite intense for someone who has very basic knowledge in Excel. Otherwise, Alvin made it easy for us to understand and took time to assist those that needed help. I have learnt a lot these last two days."

Regional Component Planner, Komatsu Australia: "Very informative. Gave an excellent count of how-to's."

Power BI Dashboard & Report Masterclass: Analyse and Visualise Data with Power BI

22nd – 23rd October 2018 | Sydney

Workshop Overview

Tired of struggling with countless complex Excel reports which contain hundreds of formulas, not to mention the headache of trying to make sure everyone is using the latest version. Power BI is a suite of interactive data visualisation business analytics tools that deliver insights throughout your organisation. You can use Power BI to connect to hundreds of data sources, simply data preparation, and drive ad hoc analysis. Power BI produces beautiful reports, then publish them for your organisation to consume on the web and across mobile devices. Everyone can create personalised dashboards with a unique, 360° view of their business and scale across the enterprise, with governance and security built-in.

We will show you how, without the need of former data analysis training or needing to learn another language, you can be building and sharing reports and dashboards that are useful and beautiful

Key Takeaways

By the end of the course, participants will:

- Clean and transform data, model it and build KPIs and metrics that answer specific business questions
- Use DAX effectively to build time intelligence reports, slice reports by measures and filter according to context
- Access data from supported on-premises and cloud-based sources with automated, incremental refreshes
- Combining multiple data sources into one dataset
- Perform forecasting
- Apply security rules and share content
- Create stunning reports with interactive data visualisations
- Perform analytics and find patterns with Power BI features like quick measures, grouping, forecasting and clustering.

Prerequisites

No prior knowledge of programming or data analysis is required.
